bandk.co.uk.

This project will consist of demolition of existing buildings and construction of two new blocks. This will provide the current 1200 pupil school with a new three storey teaching building, a swimming pool and sports centre.

We will start on site on 23/08/2023 with the setup of our site offices and the erection of the boundary hoarding to the existing playing field which will be ready to accommodate the temporary school buildings.

The entire project is due to be finished by late spring 2027.

All works and deliveries will be coordinated to avoid disruption to the operation of the school. We appreciate your cooperation regarding these works and this website will be regularly updated with information about forthcoming activities on site.

If you have any questions or comments please contact the Senior Project Manager below. Alternatively, send us a comment about this site, scan the QR code (right) and send us a message or text (including the site ID number 97992) to 07400 334 880 (does not accept calls).

Considerate Constructors Scheme Code of Practice

**CONTRACTOR
AND SUPPLIER
PARTNER**

**CONSIDERATE
CONSTRUCTORS
SCHEME**

Organisations registered with the Considerate Constructors Scheme make a commitment to conform to the Code of Considerate Practice.

Through consideration to community engagement, the environment and workforce wellbeing they strive to improve the impact of the construction industry and leave a positive legacy through the implementation of best practice.

The Code of Considerate Practice defines the fundamental expectations for registration with the Scheme. The Code applies equally to all organisations registered with the Scheme, regardless of size, type or location.

Respecting the Community

Constructors must manage their impact on their neighbours and the public to support a positive experience, by:

- Ensuring courteous and respectful language and appropriate behaviour in and around the construction activity.
- Providing a safer environment, preventing unnecessary disturbance, and reducing nuisance for the community from their activities.
- Proactively maintaining effective engagement with the community to deliver meaningful positive impacts.

Care for the Environment

Constructors must minimise their impact and enhance the natural environment, by:

- Prioritising environmental issues to protect the natural environment and minimising negative impacts.
- Optimising the use of resources, including minimising carbon throughout the value chain.
- Engaging with the community to improve the local environment in a meaningful way.

Value their Workforce

Constructors must create a supportive, inclusive, and healthy workplace, by:

- Actively encouraging and supporting an inclusive and diverse workplace.
- Proactively supporting safe working, mental and physical wellbeing at work.
- Providing workplaces that are, well maintained, clean and secure from physical and biological hazards.
